wardrobe systems

Muro brings you its latest wardrobe and display system. Fully customisable and extremely versatile, Muro creates the ideal arrangement for organizing and displaying belongings in a contemporary and elegant way.

Providing linear, corner and 'C'-type configurations, Muro utilizes even the smallest of spaces within a room, generating as much storage space as possible. Aluminium wall up-rights support wall paneling whilst also providing a quick and easy means of affixing brackets for hanging rods and shelving.

Complimenting accessories such as drawer units, trouser rack, hanging rod, shelving and lighting can be freely positioned within the system, offering added functionality. You decide where and how you want to arrange your possessions and let Muro cater to these needs.

Muro Wardrobe System has been registered as a copyright product and the system has been patented for its special features.

1. Wall up-right capping
2. Wall up-right in extruded anodized aluminium affixed directly to the wall
3. Shelving unit in 30mm melamine light oak
4. Muro bracket in die cast aluminium
5. Hanging rod in anodized aluminium

Muro shelf spacer is designed to slant shelving 0.5 degree upwards. This counters the weight load and prevents the shelving from slanting when a heavy load is placed on top.

Screws are tightened within the internal structure of Muro, preventing the shelving from falling off the stand. Muro i-tight safety bracket - another special feature to lock Muro tightly and firmly to the aluminium wall column.

Muro shelf spacer height is adjustable
